

DTACH
WIRELESS // FUNCTION

DTach Desk stand with wireless charging

// DTach desk stand is a Scandinavian design product intended for both home and office usage. Its design also makes it very suitable for public charging spots

// Charging is transmitted using induction technology where the phone is placed directly on the charger and is held in place by magnets

// First out in the product series is a desk stand with a case for iPhone 6 / iPhone 6S. The desk stand also charges the Samsung Galaxy S6 and Samsung Galaxy S6 Edge (no case needed).

// More compatible cases are coming soon

// All DTach products are certified by Apple and carry the MFi certification

This is DTach

DTach is a scandinavian brand with product design and development in Sweden.

Our mission is to create innovative and user friendly solutions that improve the functionality of your smart phone.

We pair smart phones with smart users.
